Photocopying

Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to photocopy for non-profit educational classroom use.

For information on how to seek permission visit www.elsevier.com/permissions or call (+44) 1865 843830 (UK) / (+1) 215 239 3804 (USA).

Derivative Works

Subscribers may reproduce tables of contents or prepare a complete electronic or printed text of the article for internal circulation within their institutions. Permission of the Publisher is required for all other derivative works, including compilations and translations (please consult www.elsevier.com/permissions).

Electronic Storage or Usage

Electronic Submission

Permission of the Publisher is required to store electronically any material contained in this journal, including any article or part of an article. (Please consult www.elsevier.com/permissions).

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.

Author inquiries

You can track your submitted article at http://www.elsevier.com track submission. You can track your accepted article at http://www.elsevier.com trackarticle. You are also welcome to contact Customer Support via http://service.elsevier.com.

Language (usage and editing services)

Please write your text in good English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use the English Language Editing service available from Elsevier’s WebShop http://webshop.elsevier.com/languageediting/ or visit our customer support site http://service.elsevier.com for more information.

Illustration services

Elsevier’s WebShop (http://webshop.elsevier.com/illustrationservices) offers Illustration Services to authors preparing to submit a manuscript but concerned about the quality of the images accompanying their article. Elsevier’s expert illustrators can produce scientific, technical and medical-style images, as well as a full range of charts, tables and graphs. Image ‘polishing’ is also available, where our illustrators take your images(ies) and improve them to a professional standard. Please visit the website to find out more.

Publication information: Journal of Controlled Release (ISSN 0168-3659).

For 2018, volumes 269–292 are scheduled for publication. Subscription prices are available upon request from the Publisher. For institutions, subscription rates are available on a pro-rata basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

RESEARCH PAPERS

1–18

Streptavidin–mirror DNA tetrahedron hybrid as a platform for intracellular and tumor delivery of enzymes

Kyo-Jun Kim1, Dohyeon Han2, Jiyunae Kim3, Chang-Yong Lee1, Wonseok Lee1, Dae Sung Yoo1, Dongyun Shin1, Sun-Joon Min1, Ick Chan Kwak1, Hak Sun Chung1, Da-Hee Ahn2

1Department of Anesthesiology, Korea University College of Medicine, Seoul 136-701, Republic of Korea
2Department of Biomedical Engineering, Korea University, Seoul 136-701, Republic of Korea
3Department of Urology, Korea University Ansan Hospital, Gwangju 61469, Republic of Korea

11–19

Single Step Double-walled Nanoencapsulation (SSDN)

Aharon Azaqy1, Vera C. Fonseca2, Daniel Y. Choi3, James Perez-Rogers4, Christopher M. Baker1, Elaine Steranka1, Victoria Goldenstein1, Dominick Calvao1, Eric M. Darling2,3, Edith Mathiowetz4,5,6,7

1Department of Molecular Pharmacology and Physiology, Icahn School of Medicine at Mount Sinai, New York, NY 10029, USA
2School of Engineering, Brown University, Providence, RI 02912, USA
3Center for Biomedical Engineering, Brown University, Providence, RI 02912, USA
4Center for Biomedical Engineering, Brown University, Providence, RI 02912, USA

20–29

CD44 targeting biocompatible and biodegradable hyaluronic acid crosslinked zein nanogels for curcumin delivery to breast tumor in vitro and in vivo evaluation

Hae-Yong Seok1, N. Sanjo Rejois2, Kamali Manicamaragam Leksmi3, Kondanda Reddy Chandrayya3, In-Kyu Park4, Ye-Chun Kim3

1Department of Chemical and Biomolecular Engineering, Konark Institute of Science and Technology (KIST), 201 Dharak-D BW, Yavatmal, MA 444004, India
2Department of Orthopedics, Albert Medical School, Kongju National University, Gwangju 61469, Republic of Korea
3Department of Biomedical Science and BK21 PLUS Centre for Creative Biomedical Sciences, Chonnam National University Medical School, Gwangju 61469, Republic of Korea
