COVER STORY

213–213
Transcending nanomedicine to the next level: Are we there yet?

Kinam Park
Purdue University, Biomedical Engineering and Pharmaceutics, West Lafayette, IN 47907, USA

REVIEWS

38–67
Nanoencapsulation of carotenoids within lipid-based nanocarriers

Hadis Rostamabadi, Seid Reza Falsafi, Seid Mahdi Jalali
Faculty of Food Sciences and Technology, Gorgan University of Agricultural Sciences and Natural Resources, Gorgan, Iran

83–98
Therapeutic vitamin delivery: Chemical and physical methods with future directions

N. Sanoj Rejinolda, Hye Kyoung Kim², Abdel F. Isakovicb, Deborah L. Gaterc, Yu-Chun Kim²
¹Department of Chemical and Biomedical Engineering, Korea Advanced Institute of Science and Technology (KAIST), Daejeon, Republic of Korea
²Department of Chemistry, Khalifa University of Science and Technology (KUST), P.O. Box: 127788, Abu Dhabi, United Arab Emirates
³Department of Physics, Khalifa University of Science and Technology (KUST), P.O. Box: 127788, Abu Dhabi, United Arab Emirates

(Contents continued on inside back cover)
The Journal of Controlled Release (JCR) publishes high-quality research articles in the broad field of delivery science and technology. This includes drug delivery systems and all aspects of formulations, such as physicochemical and biological properties of drugs, design and characterization of dosage forms, release mechanisms, in vivo testing, and preclinical and clinical development in the disciplines of pharmacological, diagnostic, agricultural, environmental, cosmetic, and food industries. Manuscripts that advance fundamental understanding of principles and/or demonstrate advantages of novel technologies in various fields over current clinical standards will be given priority. Each issue has the cover story highlighting the significance of a selected article published in the issue. At the end of each quarter, the JCR editors select "The Editors' Choice" from the published research articles.

Author inquiries

Language (usage and editing services)

Please write your text in good English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use the English Language Editing service available from Elsevier’s WebShop http://webshop.elsevier.com/languageediting/ or our customer support site at http://service.elsevier.com for more information.

Illustration services
Elsevier’s WebShop (http://webshop.elsevier.com/illustrationservices) offers Illustration Services to authors preparing to submit a manuscript but concerned about the quality of the images accompanying their article. Elsevier’s expert illustrators can produce scientific, technical and medical-style images, as well as a full range of charts, tables and graphs. Image polishing is also available, where our illustrators take your image(s) and improve them to a professional standard. Please visit the website to find out more.

Publication information: Journal of Controlled Release (ISSN 0168-3659). For 2019, volumes 318 are scheduled for publication. Subscription prices are available upon request from the Publisher or from Elsevier Customer Service Department nearest you. Further information is available on this journal and other Elsevier products through Elsevier’s website (http://www.elsevier.com). Subscriptions are accepted on a prepaid basis only and are available to all categories of订户, whether in Europe or outside Europe. Priority rates are available upon request. Claims for missing issues should be made within 6 months of the date of dispatch.
